

## Gallery Walk: Featuring Oregon School Employee Wellness (SEW) Programs

In your team, choose one person from your group to stay at your team's poster presentation to answer questions and receive feedback from other teams. To allow each person to experience the Gallery Walk, a second person from your team can switch places with the person selected to represent your team.

Start at a team's SEW poster and after a few minutes move clockwise to review other SEW posters. Take a few minutes at each poster to capture ideas and ask questions. Listen for prompts to keep everyone rotating to the next SEW poster. The goal is to visit as many SEW posters as possible during the 40 minutes dedicated to the Gallery Walk.

As you walk, you may have insights and ideas about your own program. Use the space below to jot these down.

**Guiding questions are offered, but don't let them limit your thinking:**

What do you see on other teams' SEW posters that stretches your thinking about your SEW program?

What ideas or strategies do you want to bring back and discuss with your team?

What are you still wondering about? Which teams do you want to connect with and dig deeper into their SEW program and strategies?

**Notes:**
